MONTAGU DEFIES PREMIER;  
INDIAN MESS GROWING.

Secretary is Backed by Viceroy in  
Demand for Equal Rights;  
Gandhi is Arrested.

(BY CABLE-EXCLUSIVE DISPATCH.)  
LONDON, March 10.—E. S. Montagu has made up his mind that he is not going to take his dismissal from the Secretaryship of India lying down. He is out to fight for India's rights, or at least an equal voice with Great Britain in the determination of its foreign policy, and he will begin his campaign tomorrow in a speech to his constituents at Cambridge.

The incident, therefore, may become epoch making in the relationship of India with the empire, for there is no doubt that Montagu has the support of Lord Reading, the Viceroy of India, and the whole of the Viceroy's Cabinet, part of whom are natives. Now that Gandhi has been arrested has reached London.

Montagu's successor may be named within twenty-four hours. It is said that Lloyd George is trying to induce Andrew Bonar Law to take the office, and Law is willing if the doctors say he is able to bear the strain. Other names mentioned are Lord Crawford, the Duke of Devonshire and Winston Churchill, but the latter is not likely to accept, as he has the Irish settlement to complete.

There is much speculation about the position of Lord Reading. While he is not technically involved in Montagu's insubordination in publishing the report, it is certain that he is in sympathy with Montagu's action and may have been consulted. It is certain Montagu knew what he was doing when he decided to defy precedent and try to force the home government's hand on behalf of India's claims. Even if this does not, the manner in which Lord Reading's recommendations were publicly flouted would make his position in India difficult, if not impossible. However, it is not expected that he will resign before the Prince of Wales leaves India a week from tomorrow.

AMUSING SITUATION.  
The arrival in London of Ismet Pasha, the Turkish Foreign Minister, and his reception by Lord Curzon in the latter's bedchamber, has caused an amusing situation, for the Turks are asking less than their Indian and Anglo-Indian friends are asking for them. When interviewed today Ismet declared he wants Turkey only as far as the Mesopotamia River, but including Aden, the Dardanelles open.

RADIO PUBLIC UTILITY.

Control Should Be Vested in Secretary of Commerce,  
Recommendation of Conference.

(EXCLUSIVE DISPATCH.)  
WASHINGTON, March 10.—The conference on radio telephone control held here under the direction of Secretary of Commerce Hoover submitted today a series of tentative recommendations for consideration and constructive criticism by interested organizations before taking final action in two or three weeks.

Primarily the recommendations are:  
That the radio laws be amended to give to the Secretary of Commerce adequate legal authority for effective control of the establishment of all radio transmitting stations, except amateur, experimental and government stations, and of the operation of non-governmental radio transmitting stations.

PUBLIC UTILITY.  
That it is the sense of the conference that radio communication is a public utility and as such should be regulated and controlled by the Federal government in the public interest.

That the types of radio apparatus most effective in reducing interference should be made freely available to the public without restriction.

Dr. W. Stratton, director of the Bureau of Standards, is chair-

PACT SEEMS  
SAFE NOW.

Ratification by  
Small Margin.

Bitter-Enders, However, Are  
Confident They Can De-  
feat Pacific Treaty.

Johnson and Borah Hand in  
Hand With Democrats  
in Opposition.

BY ARTHUR GEARS HENNING.  
(EXCLUSIVE DISPATCH.)  
WASHINGTON, March 10.—The four-power treaty, foundation of the new safeguards of peace in the Pacific Ocean, wrought by the Conference on the Limitation of Armaments, will be ratified by the Senate, if better, but the margin in its favor is so narrow as to cause much anxiety among its proponents.

Admitting that the result will be close, administration leaders expressed confidence today they would muster three or four votes beyond the necessary two-thirds. This view is shared by Senator Underhill, Democratic leader, who has promised to deliver not less than eight Democratic votes in favor of the pact.

OPPOSITION CONFIDENT.  
Opposition leaders, for the first time, however, began to show optimism over the prospect of winning the fight against ratification. Among those who attended were Senator Johnson of California, Republican, and Senator Reed of Missouri, Republican.

Senator Robinson, who is leading the fight, on the Democratic side against ratification, gave assurances that there would be twenty-eight Democratic votes against the treaty.

If his figures are correct, the total opposition strength will be thirty-two votes, counting the four Republicans who have already declared against the pact. This would mean that the pro-treaty forces would have to get sixty-four votes to obtain the necessary two-thirds for ratification. The difficulty is that these pro-treaty Senators will be invariably absent and probably unpaired, so that if Senator Robinson's estimates are accurate the total vote in favor of ratification would not exceed sixty-one and the treaty would be rejected by one vote.

FEAR DISAPPROVAL.  
There is general belief among Republican leaders that the Democratic opposition will dwindle when it comes to assuming responsibility for rejection of the four-power pact, which Senator Lodge declares would wreck all the work of the administration.

On the other hand Democratic Senators say they are not fearful of the political consequences of opposing the treaty and they have pledged to vote against it.

Several Republican Senators have expressed notice that they support the four-power pact only on condition that the reservation committee is adopted.

The anti-treaty Democrats are making overtures now to form a temporary coalition with the ultra-administration Republicans, led by Kellogg of Minnesota, to bring about defeat of the reservation, calculating that this would force at least three more Republican "irreconcilables" to vote for complete rejection of the treaty.

The feeling became prevalent that the fight for ratification has

Order Against  
Kaiser's Busts  
and Pictures.

(BY CABLE AND ASSOCIATED PRESS.)  
BERLIN, March 10.—All insignia of monarchies Germany must be removed from public buildings. Minister of the Interior Adolf Koerber today told the Reichstag. Exceptions will be made, he said, only where these emblems are structurally incorporated in buildings where their removal would destroy the architectural value and effect.

LATEST NEWS  
UNKNOWN HANGS HIMSELF  
BETWEEN TWO BOX CARS

With the frayed pockets of his clothing revealing nothing but a red bandanna handkerchief and a yellow pencil, the body of an unidentified man, about 30 years old, was found early this morning hanging between two box cars beside the Oakland brewery, 113 South Central avenue, C. Massingill, a brakeman for the Southern Pacific, made the discovery when the cars were switched from the spur track to the main line on Alameda street. The man apparently was a Slavonian. He had blond hair, brown eyes, was about 6 feet in height and weighed about 150 pounds. He wore a brown coat, gray-striped trousers and a brown coat bearing the trade-mark of a Los Angeles clothier.

PRESIDENT HARDING WILL VETO BONUS BILL  
NEW YORK, March 10.—A St. Augustine dispatch to the New York World says: "If Congress passes the bonus bill President Harding will veto it. He has left no doubt in the minds of the members of his vacation party that this is his intention. He will not be forced by the House Republicans into a public announcement in advance that he will veto the bill, but he has made his attitude perfectly clear to Secretary Weeks, Atty.-Gen. Daugherty and Speaker Gillett of the House."

AIR MAIL PILOT IS MISSING; BELIEVED SAFE  
SALT LAKE CITY, March 10.—Pilot Paul Scott of the Air Mail Service, who left Elko, Nev., at 4:22 o'clock this afternoon, was caught in a snowstorm shortly after leaving that city and failed to reach Salt Lake. Nothing had been heard from him at division headquarters here at a late hour tonight, though Charles Nelson, division superintendent, is of the opinion that the aviator made a safe landing for the night of some point in Nevada. He was due in Salt Lake at 4:24 p.m.

ASSERTED LEGION EMBEZZLER SOUGHT HERE  
FORT WORTH (Tex.) March 10.—The American Legion, Department of Texas, filed suit today against Dr. Guy O. Shirley, Past State Commander, asking judgment for \$129,373.75. A warrant for the arrest of Shirley was issued at Austin yesterday charging embezzlement of funds belonging to the American Legion of Texas. Shirley, it is believed, is in Los Angeles, and Sheriff Smith of Tarrant county has wired Los Angeles authorities to hold him.

QUEER ACCIDENT CAUSES DEATH OF SOLDIER  
GREAT NECK (N. Y.) March 10.—A pot of coffee, which boiled over and extinguished the gas flame beneath it, today caused the death by asphyxiation of Philip Henry Sheridan, 32, a lieutenant-commander in the naval reserve. He was found dead sitting at the kitchen table in his home here with a book in his hand. Sheridan had been in the naval reserve twelve years. During the war he commanded the U.S.S. Mars.

TWO PASSENGER TRAINS LOST IN STORM  
TOPEKA (Kan.) March 10.—Two Rock Island trains are lost somewhere in the Southwest, a Union Pacific passenger train has been cancelled and a Santa Fe train reached Topeka more than thirteen hours late tonight as a result of a blizzard which has demoralized train, telephone and telegraph service throughout the Southwest.

FLOOD THREATENS MISSISSIPPI CITY  
COLUMBUS (Miss.) March 10.—Columbus tonight was threatened with a flood of alarming proportions. For the twenty-four hours ending this morning, 5.76 inches of rain fell. Five streams have overflowed their banks. Bridges have been washed away and indications were that the damage will be heavy.

WON'T INDICT TOM SLAUGHTER'S SLAYER  
BENTON (Ark.) March 10.—The Saline county grand jury today reported its refusal to indict James J. Hester, the prisoner who slew Tom Slaughter, noted desperado, following their escape from the prison at Little Rock with a number of negroes.

TO EXPLORE INCAS' TOMBS.

Maj. Dickey Sails for Peru, Where He Hopes to  
Make Discoveries in the Andes.

(BY A. P. NIGHT WIRE.)  
NEW YORK, March 10.—Maj. Herbert Spencer Dickey, fellow of the Royal Geographic Society, sailed on the Panama-bound steamer Colon today to explore tombs of Inca royalty, which he discovered in the Andes Mountains five years ago.

Traveling with carrier-Indians, he plans to cross the Andes from the west side, coming out at the head waters of one of the tributaries of the Amazon in Ecuador.

"I expect to be in Quito in two weeks," he said. "That far, transportation is by rail and carries me to an altitude of 10,000 feet. Where I will cross the Andes the altitude is 14,000 feet."

"As I am taking not more than 2000 pounds of equipment, I shall not require more than thirty Indian carriers. They will carry about 75 pounds each. For ninety days there will be no fires and we will be in ice, snow and half-frozen mud most of the time. But after that, the hardships disappear and the descent to the east is really a picnic in comparison."

Last year he tried to get through from the eastern side of the Andes after journeying 2500 miles up the Amazon by boat. But the Indians of the Upper Amazon refused to make the trip with him, he said, because they feared the head hunters who will inhabit some sections of the mountains.

Young Woman Opens  
Fire on Policeman;  
Officer is Wounded

(BY A. P. NIGHT WIRE.)  
NEW YORK, March 10.—Two young women and two men, said by police to be members of a Canadian rum-running gang, put up a spirited battle with revolvers tonight when two detectives of the prohibition squad raided a house on Charleston street which they had been informed was used as a terminal for distributing liquor brought from Canada.

One of the detectives was shot in the shoulder before police reserves arrested three of the band. The other escaped. One thousand bottles of Scotch whisky were confiscated.

Detective Vance Lavender, whose wound proved slight, said later that he believed a woman who stood on the stairs and opened fire before the two men joined her was responsible for his injury. She told the police her name was Molly Persell.

That a raid was not unexpected was evident, the detectives said, from the promptness with which Molly appeared with a gun in her hand when the doorbell rang.

As the officers were admitted, they said, the girl who opened the door began calling loudly to her companion: "Shoot, Molly, shoot!"

AMERICAN CARDINALS WIN.

Interval Between Death of Pope and Sacred Conclave  
to Elect Successor to Be Extended.

(BY CABLE AND ASSOCIATED PRESS.)  
ROME, March 10.—A papal decree will be made public shortly extending to fifteen days the interval between the death of a Pope and the beginning of the sacred conclave to elect his successor, Cardinal O'Connell, Archbishop of Boston, told the Associated Press today.

The decree, the cardinal added, also will grant the Sacred College the power to extend this period if necessary.

The document is now in the hands of the papal department of briefs, awaiting technical changes in phrasing. After these have been made it will be presented to the Pope, who will sign it, and then it will be published.

The decree is a climax to Cardinal O'Connell's dramatic arrival in Rome after a long ocean race only to find that the new Pontiff was elected an hour before his arrival. The haste with which the cardinal endeavored to reach Rome deeply affected most of the members of the Sacred College and His Holiness, who, from the first, promised that "it will not occur again."

IMPORTANCE EMPHASIZED.  
The importance of America in the Sacred College has been emphasized on every hand. It was acknowledged the chances of American cardinals ever arriving on time to elect a Pope would be endangered if the interval between the death of a Pontiff and the election of his successor was left at ten days, due to infrequent sailing of ships for Italy and also the uncertainties of the northern route.

Cardinal O'Connell was highly elated over the new decree, which is the result of the initiative of Pope Pius himself.

"I feel now that our race across the ocean was not altogether in vain," he said to the correspondent. "We returned feeling happier, that the haste which was necessitated through the ten-day limit is not as impelling as before. We now will have time to get here. Then, too, if overlooked for exigencies occur, the Sacred College can extend the time and there will be no more race across the Atlantic."

Cardinal O'Connell will leave Rome tomorrow for Capri, where he will rest until after Easter, of good for the Church in America and Oregon and rain and snow for Idaho and Nevada.

"We have enjoyed our stay in Rome immensely. We feel that we have accomplished a great deal of good for the Church in America. Our country looms as a powerful giant on the horizon."

(Continued on Second Page.)

COAST DUE FOR SOAKING.

Rain Is Forecast for All California, Washington,  
Oregon; Rain and Snow for Idaho and Nevada.

(EXCLUSIVE DISPATCH.)  
SAN FRANCISCO, March 10.—Pacific Coast States are due for a soaking tomorrow, and the downpour scheduled for Idaho and Nevada may have a touch of snow mixed in, according to tonight's forecast of the Weather Bureau.

A moderate storm was reported central over Northwestern Oregon tonight and storm warnings were ordered hoisted as far south as San Francisco. Rain was the forecast for all California, Washington and Oregon, and rain and snow for Idaho and Nevada.

Winter gave the northern part of the State a back lick today. The weather turned cold before a high wind and snow fell in Westerville, Montgomery Creek, Fall River Mills and Burney; a flutter of snow fell in Redding.

At Dunsmuir four inches of fresh snow fell and the snow was coming down hard at Suisun. It is not believed blossoms on the fruit and nut trees are far enough advanced to be harmed by the cold snap. At the Burney a foot of new snow had fallen today. The rainfall data for the twenty-four hours ending at 8 p.m. follows:

Station	24 Hrs.	7 Days	30 Days	Month
Burney	24.00	22.00	21.00	20.00
San Francisco	11.00	11.00	11.00	11.00
San Jose	11.00	11.00	11.00	11.00
San Luis Obispo	11.00	11.00	11.00	11.00

## BONUS BILL COMMITTEE MEETING IS POSTPONED.

**Favorable Report on Monday is Assured by Chairman Fordney; Asks Justice for Dead.**

(BY A. P. NIGHT WIRE.)

WASHINGTON, March 10.—Announcement by Chairman Fordney that the House Ways and Means Committee would meet Monday, instead of tomorrow, to consider the compromise bonus bill was the chief development today in the bonus situation. Inability of several committee members to be on hand tomorrow prompted postponement of the meeting, according to the chairman, who declared, however, that the delay in obtaining committee action on the bill would in no way affect the program, which calls for a vote in the House within ten days.

Favorable report on Monday by the committee of the revised bill, which provides for issuance of adjusted compensation certificates to war veterans is assured, Republican and Democratic committee members agreed. They generally were of the opinion that no further changes of consequence would be made in the measure. Several committee members are expected to be absent tomorrow, but a majority is said to feel that the measure is a satisfactory compromise.

**FORDNEY RETICENT.**  
Mr. Fordney, on his return late from a western trip, refused to comment on the postponement of the committee meeting. He said he was not sure of the outcome of the measure, but he was confident that the committee would report favorably on Monday.

Mr. Fordney declared, however, that he was certain that the measure would be passed. He said he was confident that the committee would report favorably on Monday. He said he was confident that the committee would report favorably on Monday. He said he was confident that the committee would report favorably on Monday.

**WILL AIR VIEWS.**  
With debate limited to less than an hour under the suspension of the rules program, various members of the House are expected to make statements on the bonus bill. Mr. Fordney is expected to make a statement on the bill, and Mr. Clegg is expected to make a statement on the bill.

**CONCLUSION OF THE BILL.**  
The bill provides that the bonus shall be paid to the veterans in the form of adjusted compensation certificates. The bill also provides that the bonus shall be paid to the veterans in the form of adjusted compensation certificates.

**INJUSTICE TO DEAD.**  
"Certainly neither logic nor justice warrants making a distinction between the heirs of dead veterans who may die a week after the law goes into effect and the heirs of veterans who may die a week before. Above all, the injustice is manifest of favoring the heirs of veterans who may die in civil life in the future as compared with the heirs of those who died while actually in the military or naval service of the country."

**LEGISLATIVE SPEED ASKED BY GOVERNOR.**  
Mr. Andrew said he submitted to the Ways and Means Committee an amendment which would have taken care of the situation. Of nine members of the committee, five voted on the amendment, five Mr. Andrew said he had been informed, voted against it, while four favored the proposed amendment.

**MEN AND FORTUNE IN DIAMONDS HELD.**  
OAKLAND POLICE BELIEVE THEY HAVE SOLVED ST. PAUL STORE ROBBERY.

(BY A. P. NIGHT WIRE.)  
Three men who had diamonds valued at \$10,000 in their possession and who, the police believe, are members of a nation-wide organization of thieves, were arrested here today on a suspicion of having robbed the jewelry store of Gus Shapiro in St. Paul last October, in which \$120,000 worth of jewelry is said to have been taken.

The men are Jack Harris, proprietor of a Vallejo cafe; Max Harris and Gus Schaefer. The police later found \$2000 worth of diamonds and \$5000 in currency in a safe deposit box rented by Mrs. Schaefer.

## INDIAN MUDDLE GROWS WORSE.

(Continued from First Page.)

and unfortified, with a guarantee against an attack on Turkey by Greece in that region, and the whole of Anatolia and Smyrna. Regarding the Holy places, Ismet said he was quite willing to leave the present control undisturbed, provided the Sultan's position as the head of the Moslem world was officially recognized by the British. Ismet diplomatically declined to express any opinion on the Indian demands or on Montagu's resignation. He proposed to remain in London about ten days, conferring with the foreign office and then to leave for India.

**LOYD GEORGE LEAVES.**  
LONDON, March 10.—Prime Minister Lloyd George, with his family, left today for Crickhowell, Wales, for a vacation. Answering a question, Mr. Lloyd George said: "We have been keeping the balance quite fairly between the Turks and the Greeks, and we want real peace in that part of the world. The publication of a document of this sort [the Indian government message] makes it difficult to negotiate a satisfactory peace."

"As for Moslem opinion in India, we have always paid every regard to it."

**NOTION THROWN OUT.**  
DELHI, March 10.—The legislative assembly yesterday afternoon unanimously threw out a motion asking the viceroy to release the All India Congress Committee and the leaders of the co-operative party, who were sentenced to prison last November.

Amendments of the Democratic party who are in conference with the government are asking certain concessions on the budget. The leaders of the party declare they are able to muster seventy votes which will enable them to block the passage of the budget unless their demands are met. This with a scattering of other opponents of the budget will probably be sufficient to defeat the measure.

## RATIFICATION SEEMS ASSURED.

(Continued from First Page.)

been conducted with too much of a spirit of overconfidence. President Harding foresaw a hard fight for ratification when he appointed Underwood. The Democratic leader on the American delegation, Mr. Underwood, was originally expected to have looked upon ratification as an easy job. Today they began to realize that the opposition was real, but on the other hand, the Democratic attitude ability to draw out the Democratic vote to assure ratification.

Debate today continued to revolve about the question: "What is the treaty?" Senator Robinson rapped Secretary of State Hughes as a "dilettante" for failing to reveal the origin of the four-power pact. Mr. Underwood, who was speaking, said that the pact was negotiated, charging that conference delegations up to the day before the pact was announced denied that such a treaty was even contemplated.

**LEGISLATIVE SPEED ASKED BY GOVERNOR.**  
ARIZONA EXECUTIVE BELIEVES SPECIAL SESSION SLOW; VETO IS USED.

(EXECUTIVE DISPATCH.)  
PHOENIX, March 10.—Gov. Campbell in a morning conference today with Senate Republican members, urged more speed in the special legislative session. He so far has received only two measures, the legislative appropriation bill and one for a \$40,000 road to Boulder Canyon. This afternoon, however, there came down eight completed Senate bills, all of them proposing changes in the State Constitution, for submission to the voters next September, seeking to cut out many of the radical provisions, including the primary election law.

The Governor has vetoed a resolution giving authority for university drafts on the general fund till there could be payment of tax money due to the school. He developed that such a matter could not be covered by simple resolution so a bill to the same effect is being hurried through the two houses. The university is reported to be heavily in debt, while only about \$10,000 is in the State general fund.

The Senate passed a bill permitting legislators to be elected to an outside office, but retains a provision against appointment to office. The house has repealed several continuing appropriations and there is to be a blanket repeal of all appropriations made by the regular session for the next fiscal year. An appropriation bill for this year is expected to appear in the House early next week, with an apparent saving of about \$1,000,000.

At noon there was adjournment till Monday, the afternoon taken up by attendance of a cadet review at the Phoenix high school.

## TOTES .. CHILD .. OVER .. COUNTRY.

*Veteran With Wife and Baby Takes Long Walk.*

Percy Hanton, with his wife and 3-year-old daughter Margaret.

## FORMER SOLDIER TRUDGES FROM BAY CITY TO ATLANTIC COAST.

(BY A. P. NIGHT WIRE.)

HOBOKEN (N. J.) March 10.—Trudging alone across the continent from San Francisco with a forty-pound baby in his arms, Percy K. Hanton, a Canadian war veteran, arrived here today with his wife. Hanton, a swimming instructor and house painter, said he had fought in vain for a job that would enable him to settle down somewhere along the coast.

He had only 15 cents when he left San Francisco, he said, but managed to get enough odd jobs to keep the family in food on the trip and leave \$1 in the family purse when they reached Hoboken. Automobiles gave the family a few lifts, he said, but most of the distance was covered on foot.

## UNITED STATES HOLDS RADIO IS DEMANDS PAY. PUBLIC UTILITY.

(Continued from First Page.)

cept the decisions of the financial committee in this series of sessions. The American claim, however, may modify the distribution of this radio spectrum. The committee proposed that the existing powers of the Department of Commerce be extended to complete control of transmitting stations. It does not recommend any control of receiving stations. The committee recommends that wave lengths below 6000 meters should be in general reserved for radio telephone service, but that these wave lengths which have become used in service for telegraph service should be retained.

Some such alteration of the Washington agreement, signed last year by Louis Loucheur and Dr. Walter Rathenau, was originally proposed at the recent meeting of the Supreme Council at Cannes.

## STRIKERS RETURN TO LUMBER FACTORIES.

**McCLOUD WORKERS BACK TO WORK WITHOUT CHANGES DEMANDED.**

(BY A. P. NIGHT WIRE.)  
SACRAMENTO, March 10.—The McCLOUD River Lumber Company's box factories and other establishments at McCLOUD, Cal., with the exception of the sawmill, were operating today, following settlement of the strike of 100 employees yesterday, according to a dispatch to the Sacramento Bee, quoting T. H. Lambert, superintendent of the company.

Lambert announced no change had been made in the wages and working conditions under an order which became effective March 1. Under this scale, the company's common laborers receive 10 cents more each day but work ten hours instead of eight.

No changes were reported in the strike situation at Wood, where several hundred men walked out last week.

## Princess Mary and Husband in Florence Today

(BY CABLE AND ASSOCIATED PRESS.)  
FLORENCE (Italy) March 10.—The Italian authorities are taking extraordinary precautions to see that Princess Mary and her husband, Viscount Lascelles, are not unduly annoyed by the curious when they reach Italy.

The honeymooners are expected to arrive at Fiesole, three miles northeast of Florence, by train tomorrow afternoon, but their departure for Rome will be postponed until the couple may motor there from Pisa in order to escape possible demonstrations. It is their desire to remain incognito during the stay in Italy.

## IDAHO SOW FARROWS A RECORD LITTER.

(BY A. P. NIGHT WIRE.)  
TWIN FALLS (Idaho) March 10.—Clifford Caldwell, member of a boys' pig club at Kimberly, near here, today reported to the club secretary that he had farrowed a litter of eighteen pigs. This is the largest litter yet recorded by the Farm Bureau office here.

When the youth purchased the sow two years ago, he paid \$10 to its former owner. That same year his profits from the animal were \$125. This is thought to be the record of any pig club member in the United States.

**DIES AT AGE OF 112.**  
ST. LOUIS, March 10.—Miss Evelyn Gardner, a former slave, died today at the age of 112 years.

## IRISH TRUCE NOW TENSE.

**Limerick Revolt at Standstill.**

**Mayor in Dublin Seeks to Find Means to Peace, but is Unbending.**

**Goods Requisitioned and Merchants Wonder Who Will Pay Bills.**

(BY PAUL WILLIAMS.)  
(BY CABLE-EXECUTIVE DISPATCH.)  
LIMERICK, March 10.—Hopes for a peaceful settlement of the revolt of Republican soldiers here against the provisional government dwindled today through the failure of the negotiations which Mayor O'Meara was carrying on in Dublin.

Each side had agreed not to commit acts of violence until the outcome of the parley was known, and now neither is willing to take the initiative and call another meeting or even to declare the truce off.

If the week-end brought fighting few in Limerick would be surprised. The only thing inspiring confidence is a patrol of two lorries with armament and an armored car.

**MAYOR WON'T RECEDE.**  
At the conference in Dublin, Mayor O'Meara refused to recede from his stand, and it now seems that peace can only be secured through the intervention of outside interests. It is rumored that an organization, another city has communicated with both sides for the purpose of bringing about another conference.

In this connection it is reported that the police, which has been influential in Irish-American organizations and to have aided the Sinn Féin in their fight against Great Britain, is now in the line, takes the view that Americans of Irish descent who contributed to the cause of the Republican organization, see the result of their assistance in a different light.

The Republicans today took over two courts, the customhouse and the police station. They did not interfere with the work of the custom employees. The courts were closed, and the police station was closed. However, the dockets were light, as most of the cases are being handled in the Republican courts.

**COURT NEAR BARRACKS.**  
The court building is just behind Castle Barracks, the headquarters of the troops loyal to the British government. The barracks are being used as a court, and the court is being held in the barracks.

Under the order of Commandant Ford of the military, large quantities of foodstuffs, some accessories and automobiles, were requisitioned from local merchants. Sean Fitzpatrick, the brigade quartermaster, has ordered that the requisitioned goods be paid for by the government.

The Irish Free State is also planning to sell its dairy products in New York City, as well as elsewhere, "even though New York is a free port, and the Irish Free State is a free port."

**POLICEMEN ATTACKED.**  
BALFAST, March 10.—While two policemen were patrolling the streets of Belfast, they were surrounded by a mob of men, who threw stones and bricks at them. The policemen were injured, and the mob was dispersed.

**SUNDAY SPEAKING.**  
DUBLIN, March 10.—Mass meetings in support of the Irish Free State have been arranged for Sunday at Cork, with Michael Collins as the principal speaker. A meeting will also be held at Dublin, where Arthur Griffith and Prof. John MacNeill will speak.

**TRADE INVASION.**  
ATLANTIC CITY (N. J.) March 10.—The Irish Free State is figuring on selling its dairy products in New York City, as well as elsewhere, "even though New York is a free port, and the Irish Free State is a free port."

**CENTRAL EUROPEANS CONFER OVER GENOA.**  
BELGRADE, March 10.—Experts from a number of Central European states began conference in Belgrade today under the presidency of Foreign Minister Nitchich to formulate a program of action at the coming Genoa conference.

Representatives were present from Poland, Rumania, Yugoslavia and Czechoslovakia.

## SEVEN MOTHERS AT COLLEGE.

**Become the Schoolmates of Daughters at Nebraska University.**

(BY A. P. NIGHT WIRE.)  
LINCOLN (Nebr.) March 10.—Seven Nebraska mothers, carrying from four to ten credit hours, have become the schoolmates of their daughters at the University of Nebraska. In the case of two of the mothers it is the realization of a girlhood ambition to attend college. The others are enrolled for individual purposes, one to learn American ideals, another to study modern student life, and still another to theorize.

## HIGH SCHOOL BOYS AND GIRLS ACCUSED.

**POLICE OFFICIAL MAKES SERIOUS CHARGE AGAINST ST. LOUIS INSTITUTION.**

(BY A. P. NIGHT WIRE.)  
ST. LOUIS, March 10.—In reiterating his statement that a girl and a boy's secret organization requiring that all applicants must have violated the moral code before admission was granted, ex-parte of a local high school, Victor J. Miller, president of the Board of Police Commissioners, tonight named the St. Louis High School as the one in which the alleged immoral conditions exist. The school is attended largely by children of the wealthy West End citizens.

"My purpose in making my statement," Miller said tonight, "is to put a stop to the insinuations being continually cast upon the girl who must work to live."

Gov. Hyde is expected to take a head in the matter, which has caused condemnation of members of the Board of Education and heads of the high schools of the city.

**TRAIN LOST IN SNOW; TRAFFIC DEMORALIZED.**  
JUNCTION CITY (Kan.) March 10.—East-bound Union Pacific passenger train No. 103 was reported lost in the snow between here and Abilene, Kan., today. No word had been received from the train for hours, and all west-bound trains were being held here.

A heavy four-hour rain in this section turned to snow shortly after midnight last night and approximately six inches of snow covered the ground this morning. Wire communication is crippled, with many telegraph and light wires down. The soggy snow clung to trees, snapping off many branches.

**CORK CORPORATION BACKS DOWN ON FORD.**  
CORK, Ireland, March 10.—The Cork Corporation today adopted a resolution rescinding its recent action calling upon the representatives of Henry Ford to comply with the conditions of a factory lease, in consequence of which all construction work and the erection of machinery and other equipment of the Ford automobile factory here were discontinued early in the week. Instructions have been given to the City Solicitor to confer with the local representatives of Mr. Ford with a view to reaching an amicable settlement.

**TOPEKA (Kan.) March 10.**  
Railroad transportation is in a demoralized state in West and Southwestern Kansas, as a result of the heavy snow of yesterday and last night, which has carried down miles of wires. The Santa Fe reports no wire service west of Newton; the Union Pacific is unable to get wire service west of Junction City. The Rock Island has no reports on trains long overdue except that its California train No. 2, due here yesterday, is "snowbound somewhere in the southwest."

## SITTING ON WORLD NOT TO LIKING.

**French Actress Objects to "Unadorned" Pose Given by Artist; Brings Suit.**

(BY CABLE-EXECUTIVE DISPATCH.)  
PARIS, March 10.—Mlle. Spillip, a well-known Parisian actress, threatens to file suit against Gabriel Demergue, an artist, because he failed to paint her in a proper pose for the spring salon. Mlle. Spillip asked Demergue to picture her as a "Beauty Unadorned," but the painter hesitated, fearing that the nude figure of a popular woman actress would not be criticized.

Demergue finally agreed to paint a picture on condition that his model refrain from making any statement until it was completed. But Mlle. Spillip broke her word and looked at the unfinished picture. Instead of finding herself represented as a beautiful figure reclining in the fascinating pose she had chosen, she discovered herself sitting up rigid atop a huge globe.

Demergue preferred to have his picture showing Mlle. Spillip "sitting on the world's conventions," but the actress says she wanted a picture of herself, not of the world, and she intends to sue for the time she lost in posing.

**PUNITIVE EXPEDITION STARTED BY TURKS.**  
CONSTANTINOPLE, March 10.—A punitive expedition against the Greeks in the Pontus region, bordering on the Black Sea, was started yesterday under the personal leadership of Fethi Bey, the Turkish nationalist minister of interior. The Greeks offered the most stubborn resistance. The battle was extremely fierce, both sides suffering heavy losses.

The Komalists claim to have repulsed successfully a sharp Greek attack on the Mesender front. The intensified action along the Greek-Turkish frontier is being watched with anxiety by the Allies. Protests have been made to the Allies against a renewal of operations on the part of the Greeks, declaring the Greeks will be responsible if the Allied conference is wrecked.

## STRIKE VOTE IS COMPLETE.

Miners for Walkout, Say  
Their Officers.

Hard Coal Diggers Ask for  
Rise in Wages.

Illinois Operators Demand  
Action by Union.

INDIANAPOLIS, March 10.—The strike vote of soft coal miners was completed tonight by local unions scattered throughout the country. Although the exact returns will not be known for a week, officials of the United Mine Workers of America here believe that nine-tenths or more of the workers cast their ballots for a walkout on April 1 unless a new wage agreement is made in the meantime.

Chances of getting a wage conference with the operators of the central competitive field, comprising Western Pennsylvania, Ohio, Indiana and Illinois, seemed remote to the union chiefs, for no change in the attitude of operators opposing an interstate conference resulted from the appeal of Secretary of Labor Davis asking the two sides to get together. The only possibility of a conference, as viewed by union officials, was for the government calling both operators and miners to arbitration, but no one at union headquarters had any information that such a call was contemplated.

**WANT HIGHER PAY.**  
What may happen in the Pennsylvania anthracite strike will depend on the outcome between the union officials and operators at New York next Wednesday. To the extent only of having arranged for a joint conference is the strike situation in the soft and hard coal fields different, though no referendum vote was taken at the anthracite miners. Their convention, however, declared for a suspension in event a new wage agreement did not provide for wage advances. In the soft coal fields the miners ask the retention of their present basic wage.

The international executive board of the union finished a four-day meeting here today with the announcement that the last day's work was purely routine business. No consideration was given to the strike situation, members said.

Tabulation of the strike vote will be begun next Thursday. Though the vote may be overwhelming in favor of the strike, it is not necessarily final, for the policy committee has broad authority for dealing with any emergency question that arises in connection with the strike. However, the union officials have not manifested any intention of effecting the strike in absence of a conference with the operators.

**OFFICIERS ANGRY.**  
CHICAGO, March 10.—Illinois steel operators' refusal to accept the immediate acceptance or rejection of their proposition to make Illinois miners negotiate a new contract with the union, said the place of the present contract which expires the last of this month. The message of the operators was addressed to Frank Parrington, president of district No. 12, United Mine Workers of America.

"For almost three months now, we have done everything possible to get a settlement under way," today's message said. "We have met fully and completely every contract requirement to secure cooperation from the workers, but they have refused to discuss the subject of wages with the representatives of our employees."

"We do not propose to be held at fault if there is a strike or cessation of work in Illinois mines after April 1, nor to lend any assistance in the slightest degree to others that may contemplate the enforcement of such a policy."

Reparations Commission Costs.  
PARIS, March 10.—About 13,000,000 gold marks annually is the cost of maintaining the reparations commission, according to the budget estimates of the commission, given out today. The sum includes the expenses of subsidiary bodies.

**NOTICE TO IOWANS.**

## CHICAGO FAMILY NOW LAW FIRM.

Man Becomes Partner of  
Mother and Sister in  
Windy City.

CHICAGO, March 10.—Earl Downes today will become the third member of the firm of Downes & Downes.

The other two members are his mother, Mrs. Johanna Downes, and his sister, Miss Marion Downes, who qualified recently. Young Downes was notified this week he had passed the bar examination.

**Prince Seeking  
for Eyelet of  
Cinema Queens**

NEW YORK, March 10.—Prince Ali Ibrahim, nephew of the Sultan of Egypt, gentleman pugilist and reputed spender of \$200,000 a year pocket money, who has just arrived in America, accompanied by his companion and trainer, Louis Silverman, former Philadelphia newsboy, who grew up to be a boxer, is seeking a wife. The prince, who is a handsome, well-built pugilist, explained today, "how come" he came.

The prince, encouraged by the plan by Silverman called because he lost one eye in a fire-works blow-up in Philadelphia in his youth but no one at union headquarters had any information that such a call was contemplated.

New photographers in relay and corps after corps of interviewers at the Baltimore suite of the prince, who is a handsome, well-built pugilist, explained today, "how come" he came.

**BISHOP & COMPANY**

**STATE'S CREDIT  
MEN IN SESSION.**

Trade Problems Discussed in  
Two-Day Conference.

San Francisco Banker Talks  
of Economic Conditions.

Banquet and Dance End the  
First Day's Program.

Results of the past year's investigation and observation of business conditions, were made public yesterday by the various speeches delivered by leaders of finance and trade before the first day's session of the second annual conference of the California Credit Men's Association. More than three hundred visiting and local credit men attended the morning and afternoon sessions in the Music-Art Building and the banquet at the Ambassador Hotel.

Changing world economic conditions were discussed by H. A. Nater, assistant vice president of the Bank of Italy, during the morning session. "If America shall be supreme again," said Mr. Nater, taking up the effects of post-war readjustment, "she must have a vision of merchandising policy different from any that she has employed before. We must nationally offset cheap production in other countries by more efficient production here."

"American workmen must be more efficient in order to offset the monetary advantages given to production in Europe. If the laboring man is going to be intent on increasing his output, bettering his products, he will have a reception accorded him by employers such as he has never received before."

**EVIDENCE OF HYSTERIA.**  
"Many superintendents of big business plants are showing signs of hysteria these days," Mr. Nater said. "They are cutting wages. They are reducing organizations. They are throwing persons out of jobs, and the tragedy of it is, in many cases they are breaking up their own organizations beyond repair. It requires courage to face business conditions today."

Summarizing, Mr. Nater said, "There were more failures in 1931 than in 1929 and 1918 combined, yet there was not the percentage of failure which we had in the panic years of 1893 to 1895. Business is going to be a long and hard buyer's strike is over. Stocks are low, and people show a willingness to replenish them. Employment is slightly improving. Savings deposits have increased remarkably in the last year. Credit is available for legitimate purposes in every financial institution."

"The business failure of the immediate future is going to be the man who can no longer keep his creative ideas to bear on his business, such as have never been employed before. Business will open up to that executive who believes in maintaining the best brains for his organization, hiring the best workmen, and in establishing new standards."

**WEIGHING MEN'S CREDIT.**  
A man's credit is nothing more or less than the worth of his character, F. W. Black of the California National Supply Company told the credit men during the afternoon session. Mr. Black's speech was largely concerned with how the credit man should characterize as a business asset.

E. C. of the Flour Company gave the credit managers' attitude toward co-operative enterprises and told how they differ from the ordinary credit risk.

Invocation at the opening of the business session was delivered by Bishop Bertrand W. Stevens, while A. F. Stepan of the Western Wholesale Drug Company acted as chairman.

R. B. Von Kleinsmidt, president of the University of Southern California, Harry F. Atwood of the Better American Federation and Charles F. Stern, vice-president of the First National Bank, were on the program as speakers at the banquet. Mr. Stern discussed California's prospects for 1932 in his speech. The banquet was followed by a musical program and dancing.

Today's program includes a morning and afternoon session in the Music-Art Building. William E. of the Deputy Governor of the Federal Reserve Bank of San Francisco, will be the principal speaker. The program will be adjourned this afternoon.

**REILY APPOINTEES  
WIN IN PORTO RICO.**

SAN JUAN (Porto Rico) March 10.—Atty-Gen. Reilly today received a letter from the governor of Porto Rico, Antonio R. Barcelo, president of the United States, regarding the appointment of Reilly as attorney general of Porto Rico.

Reilly, who is a member of the United States Senate, was appointed by the Senate to the position of attorney general of Porto Rico. He is the first American to hold the position.

## Municipal Bonds

**State of Oregon**

loans then used absolutely to measure the supply of available credit ranging for instance between the midsummer of the trade reaction of year 1964 and the 12 1/2 per cent level of 1965. The 1964 level at the facilities were overstrained by speculative borrowings.

**NEAR NEW LEVEL.**

Nowadays the rate on bankers' acceptance is the most reliable measure; the "call money rate" being largely controlled by the treasury's position of the moment. Nevertheless, the low call money rate reflects even now an increasingly easy money and today's rate is 10 per cent, in January 1966 when 8 per cent was touched, it was at the low level since midsummer of 1965.

Today's stock market recovered rather emphatically with trading volume distributed than on any previous day this week. More of the day's advances occurred in the first half hour, and in January there again reflected activities of professional traders; but the market advanced on the whole as fast as in the previous week. The improvement was maintained. So far

**Development of Bank Credits; Equipment and Municipal Bonds; Federal Reserve.**

**INCREASES, NET REVENUE.** The Great Northern, like other railroads, has received a large revenue from operation over 1929 through large curtailment of expenses and in spite of \$22,000,000 loss on the sale of its assets. It has a very large gain in total revenue but it came from "other nonoperating income" which was contributed by Burlington and Quincy dividend payments to the two proprietorships. The company is in a friendly arrangement with the government. The statement suggests, however, that the Great Northern may in their full return

make a better showing for 1952 than the preliminary monthly reports have indicated.

Not much was taken out of the State Corporation's unfilled order statement as of the end of February. It showed a decrease of 100,000 barrels from the previous month at first glance might seem inconsistent with the increase of mill activity to 68 per cent of capacity in January, 49 in the earlier part of January.

**FROZEN CREDIT IMPROVES.**

The separate statements of the twelve reserve banks again are chiefly remarkable this week for their evidence of the rapidly improving condition in the "frozen credit" districts. The reserve percentage of the Atlanta bank is 100, up from 80 in January. It was 70 a week ago, 58 a year

month ago and 43 5-8 at the end of 1921. Its present reserve ratio is above that of Boston and nearly equal to those of Philadelphia and Cleveland.

Further increase with this paper week brings the Dallas bank's percentage of reserve to 50.7, up from 55 a month ago and the Minneapolis to 73 1-3 against 69 3-4.

This substantial gain in strength is due to the liquidation of tied-up credits and in fact the account of "bills on hand" was reduced in the month to \$98,000 from \$112,000 at Minneapolis and \$6,200,000 at Atlanta. Comparison of this item with the present reserve of the outstanding loans shows very remarkable results. Outstanding loans and redituents of these three banks combined are \$1,000,000,000, while the reserve is only \$120,000,000 against a reduction

[BY A. P. NORTH WIRE]

NEWTON, March 10.—The Commercial Bulletin

tomorrow will say:

"There is no such large volume of business going through to the eastern markets to which there has been rather more looking around of late. The weather is still all right, but there is a little better tone in the West. The Wheat there appears to have no contracting of moment and but little decline in the way of prices. The new crop of wheat with the tariff outflow, no doubt, naturally are reluctant to commit themselves to the present level of prices."

"Some little betterment is reported in the price of corn, but it is not on a medium grade stock as follows:

The Commercial Bulletin tomorrow will give the prices as follows:

## NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)

NEW YORK, March 10.—Various speculative issues made new records for the year in the stock market today. In the main, however, the movement was uneven and prices were more susceptible to profit taking.

Studebaker again was one of the bull leaders, presumably in connection with its very favorable annual report. Other motors were active on better prospects for the industry and auto accessories advanced substantially.

Steel moved within narrow bounds for the most part, showing few net changes of more than 1/4 per cent in the final hour. The February bookings of the United States Steel Corporation, showing another decrease of about 160,000 tons, was without visible influence.

Oil strengthened on improved trade conditions, Mexican Petroleum approximating the year's maximum quotation with heavy buying of some of the European group. Gas shares were in steady demand with other utilities, though giving way later.

Chemicals, textiles, shipping and merchandising specialties were moderately higher. Ralls were brought forward when trading in other quarters was inclined to lag. Ann Arbor preferred, Western Maryland second preferred and Wisconsin Central were strongest of that division. Sales amounted to 100,000 shares.

The money market was easier than on any preceding day of the week, call loans opening and renewing at 4 per cent and dropping to 3 1/4 per cent in the final hour. Short-time money again was obtainable at a slight concession from the 4 1/2 per cent rate.

Foreign exchanges continued to be governed by the uncertain trend of political affairs abroad. Sterling reacted slightly from yesterday's rally, but all Allied remittances were moderately lower and the German mark fortified yesterday's recovery. Scandinavian bills were heavy, declining eight to twenty points.

## STOCK QUOTATIONS IN NEW YORK CITY.

(Quoted by Louis Brown, Member New York and New Jersey Stock Exchanges, 60 Wall St., New York City.)

## MASTER THREATENED BY "EMISSARY OF GOD."

### Is Arrested After Waving Knife in Pastor's Home and Storing Orange Packer.

With a large butcher knife, Mrs. Laura Emery was yesterday in Ontario after she had threatened to kill M. H. Hutchins, whom she surprised while he was in the bathroom of his home. Her sudden appearance at the Hutchins home preceded an attack she made on the superintendent of a packing-house at Ontario.

## KU KLUX IN STATEMENT DENIES NOTE

### Challenge to Klansmen in Oil Fields is Issued by Bakersfield Detective.

BY BEN S. MARKER.

Times Staff Correspondent.

Bakersfield, March 10. — With the opening of the county grand jury investigation at Bakersfield today into night rider activities, in Taft and vicinity, the local Ku Klux Klan chapter directed a letter to the Daily Midway Driller, denying responsibility for the sending of threatening letters.

The letter written on a Klan letterhead and bearing purported official seals, was addressed to A. M. Keene, editor, and E. W. Callender, managing editor. It read:

"We note the so-called K. K. K. letter published in your paper this date, the 9th inst. We beg to advise you and all others who receive letters which are supposed to come from us, that unless they are written upon this letterhead, they are not genuine. There are no fingerprints on this letter, which you may turn over to little girls or the Fresno screech, it is not us."

(Signed)

"TAFT KLAN, No. 3, KU KLUX KLAN, REALM OF CALIFORNIA."

"Little Pyles" referred to is John Pyles, Bakersfield detective, formerly of Taft, who is said to have earned the enmity of Klansmen and to have been recently harrassed. The "Fresno screech" is the Fresno Republican.

The Midway Driller today published an open letter to the Ku Klux Klan asking it stand on the night rider activities.

## LONG NOTED MAGICIAN DIES HERE.

### Henry Keller, Famous Over World as Prestidigitator Succumbs at Home.

Relatives of Harry Keller, world-famous magician, who died yesterday noon at 460 South Ardmore street, will today make arrangements for his funeral, which, it is expected, will be held Monday afternoon at the chapel of the E. E. Overholster Sons' Company.

The body will be cremated and the ashes placed in an urn at Rosehill cemetery.

Mr. Keller died of bronchial pneumonia. He was perhaps the most widely known illusionist and the oldest of his profession in this country.

Harry Keller was born in Erie, Pa., and before his retirement from the stage about fourteen years ago was with dignity for many years the mantle of "Hermann the Great," who was for decades or more regarded as the world's foremost magician.

Mr. Keller was before the public for forty years. He mastered French, Spanish and Hebrew, and left a fortune. According to his friends, his annuities were so large he was unable to spend the income.

After being graduated from high school at Painesville, O., in 1886, Mr. Keller made his appearance as a public entertainer and soon went on a tour of the world. He married Eva Medley at Melbourne, Australia, in 1887. Her death occurred some years ago.

For several seasons Mr. Keller was assistant to "The Fakir of Ava," then a well-known magician, but later joined Davenport Brothers, spirit mediums, with whom he toured for some time. Joining an illusionist named Fay, he toured Mexico and South America as Fay & Keller from 1875 to 1878.

He then joined Ying Look and Yamadura, royal illusionists, playing through South America, Africa, Australia, India, China, the Philippines, and Japan. He next formed a team with J. H. Cunard as Kall and Cunard, and spent five years touring India, Burma, Siam, Java, Persia, Asia Minor, Egypt and Mediterranean ports. After 1884 he confined himself largely to exhibitions in the United States and Canada.

After coming to this city fourteen years ago, Mr. Keller practically retired from the stage. He was honorary president of the Los Angeles Society of Magicians. Four years ago, while observing the work of Alexander, the magician, at a benefit performance in the Mason Opera-house, Mr. Keller suffered a stroke of paralysis.

Mr. Keller leaves a niece, Mrs. M. V. Buck, and a nephew, Edward Keller, both of this city, and a nephew, Frank H. Keller of Erie, Pa. The magician legally placed an "a" in his name when he went on the stage to give his name distinction with the profession, relatives say.

## Faces Question Cross Fire in Kennedy Case.

Mrs. Madalynne Obenchain. Sketched yesterday in court as she underwent a grilling cross-examination.

## MADALYNNE FIGHTS ALL DAY ON WITNESS STAND.

### Nerves Frayed, Figure Limp, She Now Says Events Following Murder Are Forgotten.

Worn, her nerves frayed by a gruelling day on the witness stand, Mrs. Madalynne Obenchain, at the close of her testimony late yesterday afternoon, declared to the jury that her mind is a blank concerning all events following the murder of J. Belton Kennedy, with which she is charged. This declaration followed very closely a charge hurled by the State that she was a party to a wedding with Kennedy on the high seas.

Both moments were surprises. Her allegation that she was the victim of amnesia brought cries of surprise from the throats of the courtroom spectators; the charge of marriage brought only deep silence, the silence of suspense.

On each day of the trial there have been "big moments." Each has been considered "bigger" than those that had gone before. Yesterday's two "big moments" are by far the sensations of the trial.

SAYS MIND WAS BLANK.

Led carefully by the cross-examination by Dep. Dist. Atty. Keyes, Mrs. Obenchain had been brought almost to the hour of the slaying of Kennedy. Then a question, one that seemed superficial at the time, was asked. It brought forth an answer, however, that proved a thunderbolt.

Mrs. Obenchain declared that from the time she touched the crumpled form of Kennedy as it lay on the steps of the Beverly Glen cabin until some days after her arrest her mind is an absolute blank. She stated that she does not remember what took place at the Beverly Hills Police Station nor anything concerning a purported statement made to Mr. Keyes immediately after her arrest.

"Do you remember the day following the murder, the time you were in the District Attorney's office?" casually asked Mr. Keyes.

"I do not,"

"What?" The prosecutor leaned forward. His word was almost a bark.

"Do you mean to say that you don't remember being in my office and making a statement on Saturday, the day after the killing?"

"I don't remember a thing that happened. I don't deny that I made a statement. I just don't remember being there."

"Then Mr. Keyes began. He asked all manner of questions to trip the defendant. She said that she knew nothing of the alleged statement except hearing it read in court. She said that she did not remember her refusal on the following Monday to talk without an attorney. Throughout Mr. Keyes's questioning she denied remembering anything concerning her actions or those of other people.

The "high seas marriage incident" preceded the tale of amnesia and was far more startling. Throughout the day Mrs. Obenchain considered every question

(Continued on Second Page.)

## SCIENTISTS INVESTIGATE THIS STORY!

### Witness at Divorce Hearing Reports Wild Woman in San Diego!

Scientists who are headed toward Patagonia, to find the plesiosaurian monster, a gigantic swan-necked animal said to be loitering in that vicinity, have another treat in store for them, to-wit:

There's a "wild woman" in San Diego.

The tale of the wild woman, who also possesses a swan-like neck, was told yesterday in Judge McLucas's court, where Mrs. Winifred Booth's divorce suit is being heard.

During the trial a witness testified that while Mrs. Booth was absent from home, her husband, George Booth, "enjoyed two wonderful weeks in San Diego with a wild woman."

Mrs. Booth also testified that poker parties kept her husband out late at night, leaving her all alone.

SEE ROBBER WORK.

Shippard Workers Declared to Have Watched Hold-up.

C. R. Woodward, a shippard worker, told police of the harbor division yesterday that he had been the victim of a daylight hold-up near the Standard Oil storage yards. Three Mexicans, he said, held him up and robbed him at the point of revolvers before a crowd of shippard workers who looked on, amused to interfere. The Mexicans relieved him of \$13, he told the police.

## PASADENA HEIR WEDS POGO GIRL.

### Robert Savage, Freshman at Yale, Takes "Frolics" Maid for Bride.

Robert Savage, Yale freshman and 20-year-old son of Mrs. John A. Savage, one of the wealthiest women in Southern California, eloped last Sunday with Geneva Mitchell, "The Pogo Girl," and thus acquired a Zeigfeld "Frolics" bride at Milford, Conn. It was learned last night. And he started something!

First in sequence and perhaps in importance came the news that his mother, the widow of a millionaire Duluth steel manufacturer, was so shocked at the report that she is withholding the parental blessing.

"Well, he'll have to wait a long time before he hears from me," was the single statement Mrs. Savage is quoted as making in San Diego.

F. Zeigfeld, whose "Zeigfeld Midnight Frolics" was graded by the dancing of the 17-year-old bride last night, wired to his manager to insist hereafter upon an anti-marriage clause in the contract of all their actresses.

Mrs. Verna Mitchell, herself a former "Frolics" favorite, could not believe the reports of her daughter's elopement when she was interviewed in Chicago. So "Mama" Mitchell called her daughter by long-distance.

"Nothing to it!" came the assurance from the daughter.

With these developments rolling up fast upon the reports of the murder of William Desmond Taylor, motion-picture director.

At the conclusion of the interview, which was attended also by Detective Sergt. King and Winn, Dist. Atty. Woolwine stated Miss Brew's story had shed no new light on the mystery. Miss Brew was employed for four years by Mabel Normand, but resigned her position last September.

The investigation, according to Detective Sergt. King, have eliminated the startling story told in a letter forwarded to Mr. Woolwine from an Atlantic City hotel, in which the writer "confessed" to slaying Taylor. The letter, though it was signed with the name of a well-known motion-picture actor, was written by a woman, according to Milton Carlson, handwriting expert. Every detail of the crime, as recited in the letter, it was said, has been disproved.

## McADOO SEEKING BAR ADMISSION.

### Former Secretary Opens Offices in Security Building.

William Gibbs McAdoo is going to begin to practice law just as soon as he is admitted to the local bar. Announcement was made yesterday that the one-time Secretary of the Treasury has leased room 912 in the Security Building and will open his offices Monday.

He, however, cannot practice until he is admitted legally. But this it is expected will be accomplished in short order. He has made application to the Court of Appeals and his admittance may be accomplished in a few days.

No announcement was made about the nature of his practice here. It probably will be in corporation law.

Mr. McAdoo will have no associates for the present at least.

Quiz Former Secretary to Mabel Normand.

Julia Brew, formerly employed by Mabel Normand as a private secretary, was interviewed yesterday by Dist. Atty. Woolwine in connection with the investigation of the murder of William Desmond Taylor, motion-picture director.

At the conclusion of the interview, which was attended also by Detective Sergt. King and Winn, Dist. Atty. Woolwine stated Miss Brew's story had shed no new light on the mystery. Miss Brew was employed for four years by Mabel Normand, but resigned her position last September.

The investigation, according to Detective Sergt. King, have eliminated the startling story told in a letter forwarded to Mr. Woolwine from an Atlantic City hotel, in which the writer "confessed" to slaying Taylor. The letter, though it was signed with the name of a well-known motion-picture actor, was written by a woman, according to Milton Carlson, handwriting expert. Every detail of the crime, as recited in the letter, it was said, has been disproved.

## MYSTERY IS REVIVED BY NEW CHARGE.

### Aged Man Who Dropped from Sight Last August Accused as Embezzler.

Fears that George Cole, aged 74 years, a retired attorney and apartment-house owner, who mysteriously disappeared from his home at 844 South Bixel street August 2 last, were revived yesterday when a warrant charging him with the felony embezzlement of \$11,500 was issued by Justice Brown. According to the police, L. H. Green, stepson of Cole, signed the complaint at the District Attorney's office.

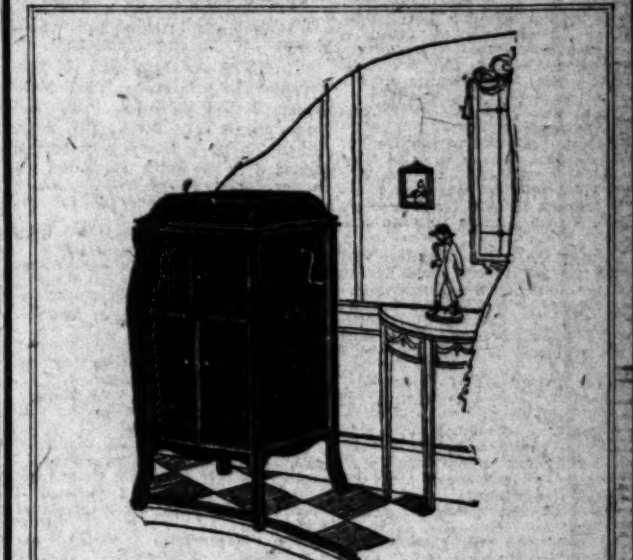

With the felony warrant issued, the police investigators are again engaged in an intensive search for the missing man.

A picture, together with a complete description of the missing man, was printed in yesterday's police bulletin. For many months following his disappearance police of this and other cities in near-by States and investigators from the District Attorney's office and the Pinkerton Detective Agency engaged in an extensive search for Cole. He was at first thought to have been either the victim of bunco men or bandits. The arrest of an ex-convict in November last who had on his person a newspaper clipping telling of the mysterious disappearance of Cole renewed police activity in the investigation. However, all attempts proved fruitless.

According to police records, Mr. Cole left his home on Bixel street for Hermosa Beach, where it was known he was to have gone to settle a business deal. His wife, Mrs. Jennie Cole, was visiting friends in Inglewood at the time. Police learned later that Mr. Cole, after obtaining a certified check for \$11,500 in Hermosa Beach, returned to Los Angeles and cashed the check at a downtown bank. Nothing was heard of him after that.

EDWARD J. GILBERT.

Edward J. Gilbert, 51 years old, died of pneumonia late yesterday at 1234 Crown Hill avenue, in the Pleasant Apartments, which he recently acquired. He had lived in Los Angeles about twenty years and was widely known as a mining engineer. He leaves a widow, Mrs. Belle Gilbert. Funeral arrangements have not been completed. It was said at Pierce Brothers, where the body was taken.

# URGES OUSTING OF BOARD HEAD.

Municipal League Demands Dismissal of McKee.

Verbal Clashes Mark Most of Port Commissioners.

Minutes Record Telling of Untruth, is Charge.

The removal of William Edgar McKee as president of the board of Harbor Commissioners was urged yesterday afternoon in a recommendation unanimously adopted by the executive committee of the Municipal League and forwarded to Mayor Cress.

"That we believe that the continuance in office of William Edgar McKee as president of the Harbor Commission is incompatible with the best interests of the harbor, and we respectfully urge the appointment of a new president of the Harbor Commission."

Mayor Cress said last night that he had no intention of removing President McKee unless Commissioners Kibbe and Richards would depart or be removed from the commission at the same time.

The Mayor has announced that in the event of an entirely new board being formed, he would appoint Commander Frederick James Loomis, U.S.N. (retired), to the place now held by Mr. McKee as president of the board.

HAMMER AND TONGS. President McKee and Commissioners Kibbe and Richards went at it with verbal hammer and tongs at yesterday's meeting.

And yesterday the thunder claps gathered again and it would not sit on this board for two minutes with a man who acted as you have acted," McKee retorted.

President McKee retorted: "But I protest against the official minutes of this board stating that I told an untruth."

"That coming was on your side at the time you said it was not there and you know it," retorted Commissioner Richards.

President McKee having been dismissed two to one on the proposition of having himself set down as a provocator, the meeting then proceeded under an armistice for a few minutes.

Then Mr. McKee produced several telegrams containing the phrase, "with much love" and they were signed "Jeff," the nickname Madalynne had given him.

"You don't know anything about insurance," said Commissioner McKee to McKee.

"You don't know anything about insurance," said Commissioner McKee to McKee.

"You don't know anything about insurance," said Commissioner McKee to McKee.

"You don't know anything about insurance," said Commissioner McKee to McKee.

# Will be Heard From Pulpits Tomorrow.

PASTOR DEFENDS SCIENCE.

Dyer to Discuss Darwin, Bryan, Billy Sunday, Others; Sermon Topics Announced.

Taking up the cudgel in behalf of science and declaring that a Kentucky Legislature, even with the aid of Billy Sunday and William J. Bryan, can never overthrow science by legislative act, Dr. Frank Dyer announced yesterday that he will preach on "Darwin and God" in the Ambassador Hotel Theater tomorrow morning.

The purpose of this sermon will be to show why Darwin's name is forever associated with the scientific fact of evolution and what being a Christian has upon the place of God in creation.

In the course of his sermon Dr. Dyer will answer the following questions: "Does Darwin deny the Christian faith? Why do scientists accept evolution as a fact as true as gravitation? Who are Billy Sunday and Bryan so furious about it? Does the church endanger science or its own usefulness?"

Dr. Dyer will also discuss the "Mystery of the Universe" and the "Mystery of the Human Mind."

Sunday Morning at 11. Sunday-school, 9:30. Wednesday evening Testimonies  
Services at 8. 2018 Orange Street, off Alvarado.

**NEW BANK MERGER IS ANNOUNCED**  
First National and First Savings of Glendale to Unite With Security.  
The First National Bank of Glendale, with its auxiliary institution, the First Savings Bank, will be merged with the Security Trust and Savings Bank of Los Angeles and the institution at Brand Boulevard and Broadway, Glendale, will become the Glendale branch of the Los Angeles institution. Announcement by Cashier Kitterman of the Glendale First National Bank, who will become a vice-president of the Security Bank and manager of the Glendale branch.  
"The distinctly local nature of the institution will be maintained," said Mr. Kitterman. "The stockholders, who are Glendale residents, will become stockholders of the Security Bank. A local advisory board will be created by the officers of the branch on all matters which involve the close identification of the branch with the community. No extensive changes in the personnel are contemplated, so Glendale patrons will continue to meet the same faces and the same general policy of the upbuilding of the city that have characterized the bank in the past."  
"The extension of the Security Bank into Long Beach, Pasadena and Hollywood has been found by those communities to be helpful to their local growth and prosperity and I believe that Glendale will undergo the same experience."

Only by God will  
posts remain;  
And shall be done  
from toil or sin;  
Humanity's law  
has changed.

SATURDAY MORNING, MARCH 11, 1922.

### COX'S TERRIFIC SMASH BEATS CUBS IN FIRST BALL-GAME OF THE YEAR.

Inaugurating the Baseball Season With a Wild Show of Pep.

One of the Tense Moments in the Chicago-Portland Game.

Rowdy Elliott was using face dive at the plate yesterday. Stretched on the ground, he has just missed Max Flack by the fraction of an inch. Shortly before this, Rowdy had nailed Grimes in a similar dangerous play. Biemiller of Portland, backing up the plate, and Umpire Beans Reardon, judging the play.

### HOMER WITH TWO MEN ON.

And the Winning Run Patter Across the Pan.

Ducks Ruin the Cubs in the Initial Contest.

Bad Weather Makes Good Play Very Difficult.

BY ED O'MALLEY.

Bill Kenworthy's Portland babies slammed it into the Chicago Cubs at Tournament Park, Pasadena, yesterday afternoon, 7 to 5. The game was a nip and tuck affair clear up to the seventh inning when Dick Cox, the hard-hitting, right fielder of the Beaver, came through with a great home-run hit. In this inning Sargent, the first man up for the Ducks struck out. Then High walked and went to third on Wolfert's whale of a double to right field. On the first ball pitched, Cox lifted a slashing homer to left center that rolled clear to the trees at the far end of the park, scoring High and Wolfert in front of him.

Portland started the ball rolling in the very first inning by shooting four over the plate, taking kindly to the offerings of the Cubs' left-hander, Jones. The Cubs grabbed two in the second and tied things up in the third with a brace more of tallies. Chicago grabbed a one-run lead in the seventh inning on Starn's single. Elliott's sacrifice and Miller's sharp liner down the third-base line.

Only a small crowd was present owing to the unseasonably cold weather. Toward the end of the contest it began to drizzle a little, most of the spectators leaving the grounds. The score:

CHICAGO CUBS	PORTLAND
Runs, 5; Hits, 10; Errors, 2.	Runs, 7; Hits, 12; Errors, 1.

### Marty Farrell Defeats Denny at Hollywood.

Marty Farrell was an easy winner over Frankie Denny in the main event at the Hollywood American Legion last night. Denny picked up for a brief spell in the final round, but the Coast middleweight's lead was too much to overcome. It was an exhibition of close-in stuff throughout and Marty dropped his rival for the count of nine in the second round. Frankie Cliné and the crowd, when he took the verdict over his younger and heavier opponent.

### Young Farrell Wins Decision Over Brenton.

Before a packed house Young Farrell, popular local 118-pounder, won a decision over Jimmie Brenton in a fast four-round argument at the Covina American Legion's bi-monthly title program last night. Aggressiveness was the bout for Farrell.

### WORLD'S RECORD IS SMASHED BY BOWLERS

(BY A. P. NIGHT WIRE.) CLEVELAND, March 10.—A world's bowling record was established here tonight when the Waite Taxi five-man team rolled 242 in the second game of a sensational series with the Hawkeye Tires in an arcade bowling league match. The previous record, 1240, was made by the Detroit Journal team of Detroit, in 1915.

Pacific Coast League baseball gained a real asset when William Klepper entered the game. Klepper is president and one of the principal owners of the Portland club.

One has only to visualize the Portland team of today to understand the caliber, the dynamic energy of the man. What he accomplished in Seattle is now a matter of history. He took the Blawhies, infant team of the league, a miserable colicky papoose, and made them two-year contenders.

Ousted from the presidency, it is asserted, by an ambitious associate, Klepper commuted over to Portland, and with Jim Brewster, bought the franchise in that city. Franchise is right, for that and the last season uniforms were about the only salable things the McCredies had to offer.

Taking over what appeared to be the most hopeless baseball situation in America, Klepper tackled the job with his usual forcefulness. In three months' time he has built from the ground up, and has in his Pasadena training camp what appears to be one of the best teams that ever represented Portland or any other P.C.L. city.

Klepper's first deal in Portland is one which not only made the Beavers to a large extent, but which also should stamp him as one of the shrewdest men either in the minors or majors.

Reference is made to the deal which sent Pitchers Johnson and Pillette to Detroit. Only recently did I learn the real magnitude of this transaction. The general impression prevailed that for these pitchers, either or both of whom may be back in the minors this season, Portland received five players. In reality, Klepper received eight players and \$35,000 cash, so I am told on apparently reliable authority.

What a swap! Pillette seldom showed us anything more than a mediocre performance down here. Johnson, apparently less experienced, displayed better form and gave greater promise. Yet neither seemed more than half ripe for the big leagues. Eight ball players and \$35,000 cash for this pair! One gasps at the nerve, the hypnotic power or whatever it is of this magnate so new to baseball when contemplating this transaction.

The original five obtained from Detroit were Pitchers Middleton, Sutherland and Crumpler, Third Baseman Sargeant and Hale, a hard-hitting utility man. Outfielders High and Gressett and Shortstop McCann, also I am told, came to the Beavers in completion of the Johnson-Pillette deal. Detroit purchased these players from the Athletics.

(Continued on Second Page.)

### DEMON VAULTERS ENTER.

(BY A. P. NIGHT WIRE.)

PHILADELPHIA, March 10.—The University of Michigan will send its newly discovered pole vaulter, Landowsky, to the University of Pennsylvania relay carnival in April. It was announced today by officials of the carnival. Landowsky recently did sensational work at the games at Illinois when he tied for first place with Merrick of Wisconsin at 12 ft. 9 in. Merrick is the western conference intercollegiate champion. They will meet here again.

The University of Oregon also will send a man who has done close to 12 ft., while Dartmouth will send Libby, who recently cleared 12 ft. 5 in. in the triangular meet with Harvard and Cornell. Entries from 265 schools and colleges have been received.

### TROJANS TACKLE TIGERS.

Charley Paddock Will Run as Bengals Did Not Protest Him.

In direct contradiction to rumors published yesterday, Fred McLain, graduate manager of Occidental College, announced last night that he had not objected to the participation of Charley Paddock in the Oxy-U.S.C. meet today at Patterson Field, and that no such action was intended. McLain admitted that the world's champ would not be eligible for competition under Southern California conference rulings, but that Occidental has waived all protest as to his eligibility for this been dashing off this event around 16 4-5 seconds, and a tight race should result.

EMMONS IS O. K. Another disquieting rumor was set at rest yesterday. It had been reported that Dick Emmons, star pole vaulter of the Trojan track squad, had suffered a broken ankle in practice Thursday. Emmons was seen in a local sporting goods house yesterday afternoon in search of a new pair of spikes, and if he was carting around a broken ankle he had it very well concealed.

In all the hubbub and excitement about the U.S.C.-Occidental track meet the fans have lost sight of the fact that the Tigers will also compete against Caltek today. The Engineers haven't a very high caliber bunch of athletes this season, and Oxy will undoubtedly win this part of the program by a large margin.

### IN GOOD SHAPE.

But things will be much different in the other section of the contest. With as classy a set of cinder diggers as has worn the Cardinal and Gold in many moons, U.S.C. is a slight favorite over the Tigers' depleted squad. Lewis Chandler, Pilpal's best representative in the mile run, has not recovered from a pulled tendon which he sustained in practice several days ago, and in all probability will not be seen in action today. This means that Buster Sloan will have to run both the mile and two-mile events, and Oxy's chances of first places in both the distance jogs is consequently lessened.

Spangler is expected to be brought up from Santa Ana today to witness the contest in which he was to have been one of the leading lights. A severe case of the mumps followed soon after by a serious touch of the flu put Spangler in the discard for this season. Oxy was counting on Spangler to run Schiller ragged in the 440, and he would undoubtedly have satisfied the Tiger rooters if sickness had not overtaken him. He has been in bed for three weeks.

### LOOKS EXCITING.

Both teams have certain events clinched before the meet commences and second and third places are expected to decide things one way or another. There is a degree of doubt as to which institution will grab five points in the hurdles, both U.S.C. and Oxy being represented in the barrier events by men who have averaged about the same so far this season. Condit, sometimes referred to as "Ostrich," will uphold the honor of Occidental in the high hurdles, being opposed by Haney and Raab of the Trojan team. All three have

**ANGELENO IS D.A.R. HEAD.**  
Mrs. Lyman B. Stookey is Inducted Into Office.  
Past Regent Installs New State Leaders.  
Pledges of Loyalty and Service Are Made.

**BY MYRA NYE.**  
Mrs. Lyman B. Stookey of this city was elected late yesterday afternoon as State Regent of the California Society, Daughters of the American Revolution. Surrounded by flowers with little girls scarcely out of their babyhood bringing to them baskets of blossoms, Mrs. Stookey, daughter of Mrs. J. W. Hoyt, San Mateo; Director, the outgoing State Regent, installed the newly elected officers in the rose ballroom at the Alexandria.  
In the group with Mrs. Stookey and responding with pledges of service and loyalty to their country, State and society were:  
Vice-Regent, Mrs. Allen H. Vance, San Francisco; Recording Secretary, Miss Helen C. Wing, Claremont; Corresponding Secretary, Mrs. James Franklin Kent, Hollywood; Treasurer, Mrs. Henry E. Bean, Los Angeles; Auditor, Mrs. J. W. Hoyt, San Mateo; Director, Mrs. Charles B. Booth, South Pasadena; Librarian, Mrs. Mary Latham Norton, Vallejo, and Consulting Registrar, Miss Louise R. Merritt, Pasadena.  
This little ceremony brought the fourteenth annual State conference to a close. Today delegates and guests are enjoying a motor ride to Riverside to the Mission Inn as the guests of the two chapters there.  
This evening they dine as guests of the Claremont Chapter at Claremont Inn and attend the Mission Play in San Gabriel.  
Yesterday Mrs. George Maynard Minor of Cincinnati, president-general of the national society, was sufficiently recovered from her attack of influenza to greet the daughters informally at both the morning and afternoon sessions. She spoke briefly before the assembly and made a delightful impression with her distinguished bearing and her geniality. Monday she returns with Miss N. Nelson, a secretary in Memorial Continental Hall in the capital city, where she will preside over the Continental Congress early in April. Mrs. Stookey and Mrs. C. C. Cottle of this city plan to join her there.

**Readings by Author and Wife Charm.**  
A well-deserved enthusiasm greeted the dramatic readings given Thursday evening at the Elbell clubhouse by Charles Linn Kennedy, playwright and actor, and his wife, Edith Wynne Matheson, whose distinction it is to have been Sir Henry Irving's leading woman during several of his last seasons on the stage.  
Four readings were given by Mr. and Mrs. Kennedy—the trial scene from "The Merchant of Venice"; the two quarrel scenes between Sir Peter and Lady Teazle in "The School for Scandal"; a scene from Mr. Kennedy's "The Servant in the House"; and a bit from "The Rising of the Moon" by Lady Gregory.

**"Economy" Jazz Dance is Given on Dreadnaught**  
An "economy dance" was given last night on the Mississippi, home ship of the Pacific Fleet, and it was by far the most important social event of the fleet in recent months.  
Some 3000 civilian guests attended and danced with Capt. Jackson, his staff, their wives, the enlisted men and their sweethearts.  
The quarter-deck was covered with canvas and decorated with signal flags and bunting.  
The ship's notably hilarious jazz band played. Each of the twenty-two dance numbers was dedicated to an officer of the fleet.  
The waters of the harbor were dotted with small craft bringing the guests and the Pacific Electric ran many extra trains.  
**ILL AND DESPONDENT MAN ENDS OWN LIFE.**  
Despondent because of continued ill health, Stefano Conti, 38 years of age, an Italian, late yesterday locked himself in his room and fired a shot through his chest. Discovered by friends, the wounded man was rushed to the Receiving Hospital, but died a short time later. They body was removed to the Reidsman undertaking establishment.  
**FRENCH SINGERS HERE.**  
Messrs. Maxime Guitton and Georges Charton, the two Parisians, arrived yesterday in Los Angeles and will give a series of their French songs in French at the Knights of Columbus Hall. These two artists are touring the world.

**FLASHES.**  
CHAPLIN DANCES.  
COMEDIAN IN CLASSIC STEP WITH MAURICE.

**By Grace Kingsley.**  
If Charlie Chaplin ever got tired of being the world's greatest comedian and wants to change his vocation, he can become a classic dancer. Any way that's what everybody thought who viewed Charlie at the Ambassador Thursday night.  
It all happened in the Coconut Grove, where Maurice on the last night of his engagement, was the impresario who presented Chaplin in his impromptu dance. The comedian's success seemed to be as much of a surprise to himself as it was to everybody else.  
Maurice has given his famous skating dance, everybody was applauding blisters on their hands. The dancer was evidently trying to think of something to do for encore, when he turned around and chanced to catch sight of Charlie at a table when he was seated with Lila Lee. Quick as a flash the dancer exclaimed: "I've always wanted to appear in a dance with Charlie Chaplin! Charlie, come on!"  
The house simply yelled itself hoarse. Charlie turned pink and white by turns, he grinned his infectious grin; then, when he saw there was no escape, he took Maurice's hand, and the two were off!  
Charlie was game! And what's more he was successful! His partner was one of the funniest things he has ever seen. But there was real grace in it, too—the grace of the naturally good dancer and of the athlete. The crowd wanted over his performance, and he sat down, flush with victory.  
Maurice himself, together with his partner, Miss Hughes, scored a tremendous success. It is just possible that he may not return to New York at present, but remain in the West and appear in a picture at the Lasky studio. This, however, is not yet determined.  
At any rate, everybody in the movie and society who's who was present to applaud his final performance at the Coconut Grove, the picture stars including Michael Norman, Charlie Chaplin, Lila Lee, Mahlon Hamilton, Kenneth Harlan, Thomas Meighan, Lottie Pickford, Allen Forrest, Jack Winder, Jack Conway, Earle Williams, Al Christie, Ruth Renick, Gaston Glass, Alice Lake, Edna Purviance, Allen Smithey, Lee Moran, Gertrude Astor, Irving G. Thalberg, Clara Kimball Young and many others.  
Oh, and of course Agnes Ayers was there as Maurice's guest of honor!  
Frank Mayo's Red Wall.  
Work is all right in its way, but the news of it is an awful shock when not broken gently following a vacation. Take it from Frank Mayo, Universal star, who has just returned from New York, whither he went on a personal appearance tour with his wife, Dagmar Godowsky.  
Mr. Mayo returned home yesterday morning, and before he had time to unpack he took up the telephone rang, telling him to come to Universal City and punch the time clock. In other words, he has to go to work today on a new story called "Out of the Silent Snow," which William Worthington will direct. And as though this were not enough, he must needs leave his other shirt packed and proceed to Truckee tonight to film snow scenes.  
While East, Mr. Mayo received a number of offers to go on the stage, including one from William Brady. He feels the call of the footlights very strongly, and declares that as soon as his picture contract with Universal is up, he's going back to the stage.

**Max Linder to Vacation.**  
Following the cutting and titling of his burlesque of "The Three Musketeers," Max Linder is planning to take a trip to France by way of vacation.  
**Houdini Raises Whiskers.**  
If you chance to be down at Tijuana and catch a glimpse of a person who may appear to you to be a big, bearded Mexican, take another look. Likely as not he will turn out to be no less a person than William Russell.  
The Fox star has packed up his vacation kit and gone to the Mexican city to hide his shame.  
He is growing a set of whiskers for his next picture, and feels that the hairy climate of the extreme Southland may do them good, especially as they are to be mere plain whiskers, unlandscaped or anything fancy.  
**Houdini Complains.**  
There is one star on the Orpheum circuit who may be said to put it mildly, to be water under the neckband these days. That star is Houdini. The reason for his torrid condition is that he has been announced as playing the Junior Orpheum house.  
I am just in receipt of a telegram from him, which explains the high state of his feelings: "Will you please wait a moment, 'contradict' report that I am on the opening or any other bill of Junior Orpheum. My name is being used without my authority, as I hold no contract for any part of Orpheum circuit. They are simply making use of my name. Am finishing up my twelve weeks on the big time, principally Keith's tour, my last week, March 15, Riverside Theatre, New York and Brooklyn, then releasing my first feature picture, appearing in person with same in principal key cities."  
William Hamilton Cline, local assistant Orpheum manager, states that the report that Houdini was to headline at the Junior Orpheum house was printed by mistake, and that it was not the intention of the Orpheum people to continue the idea that Houdini was so to appear.

**Marguerite Marsh on Stage.**  
That clever Marsh family keeps right on going up and up. Now it's Marguerite Marsh, sister of May, who is to leave the motion pictures for the stage. She is appearing in Will Morrisey's musical farce, "Be Yourself," which is shortly to be produced here, either at Philharmonic Auditorium or at the Mason.

**GEN. BERENGUER RESIGNS.**  
BY CABLE AND ASSOCIATED PRESS.  
MADRID, March 10.—Gen. Berenguer, Spanish high commissioner in Morocco, has resigned. It was announced today. Ill health was given as the reason.

**Prosecutor of Arbuckle Here on Secret Quiz.**

Keeping his mission secret, Milton U'Ren, deputy District Attorney of San Francisco, yesterday spent several hours here interviewing witnesses who will testify in the third trial of Roscoe (Fatty) Arbuckle, charged with manslaughter as the result of the death of Virginia Rappe, screen actress.  
Mr. U'Ren left here last night for San Francisco where the next trial will begin Monday. Although he admitted that he had talked with several persons who probably will testify for the prosecution, he declined to divulge the nature of his new information, or just why he came to Los Angeles.  
Both previous trials of Arbuckle resulted in jury deadlocks. The first jury standing 11 to 1 for acquittal and the second, 10 to 2 for conviction.  
Miss Rappe died soon after she became ill at a party given in Hotel St. Francis in San Francisco by Arbuckle last September. The prosecution contends her death resulted from injuries inflicted by Arbuckle. The defense asserts she died of natural causes.

**Godsol Now President of Goldwyn.**

(EXCLUSIVE DISPATCH.)  
NEW YORK, March 10.—Considerable surprise was expressed in motion-picture circles here today over the announcement that Samuel Goldwyn, president of the Goldwyn Pictures Corporation, had resigned and that his place had been taken by Frank J. Godsol, a member of the board of directors. It was considered significant that Mr. Goldwyn should step down within three days of the bringing into the industry of Will H. Hays, former Postmaster-General.  
Mr. Goldwyn will remain within the organization, according to a statement given out by the corporation, and Mr. Godsol will serve both as the active head of the concern and as chairman of the board. At the meeting of the stockholders which elected Godsol to the presidency the following were chosen directors: Eli H. Bernein, George F. Bissell, Edward Bowes, H. F. Dupont, H. P. Hays, Mr. Godsol, Mr. Goldwyn, Francis H. Gunder, P. W. Haberman, Gabriel L. Hess, Morris Hillier, Dunbar H. Holmsted, Henry Huttenlocher, Messmore Kendall, Abraham Lohy, Albert W. Wittenberg, Lee Shubert and Frank H. Hitchcock.

### **CICERO MISSES A WARM RECEPTION!**

**Can You Think of an Idea as Funny or Funnier Than This? If So, Send It in and Win a Cash Prize.**

Starting every Friday and ending every Saturday, The Times conducts a wild contest to see if you can get \$10, and next to it, and in where you must be original, local, "drawable" and funny. Each picture must be described in words. A rough sketch is all right. All drawings must be supplied by some member of the Wad family—Cicero Wad, the spender; Titus Wad, the nickel nurse; Mrs. Spenda Wad, club and society woman; Elva Wad, son; Elva Wad, pretty and frivolous daughter; Gunn Wad, 12-year-old terror, and Cicero Wad, Jr., the baby. Write on one side of paper only. Address to Mr. Wad, care The Times. Anyone may compete and submit as many ideas as desired. No manuscripts or drawings will be returned.

Haselwood, Ohio, boasts a hen that in one day laid the smallest and the largest eggs on record, both perfect. One weighs 8 ounces, the other, two.

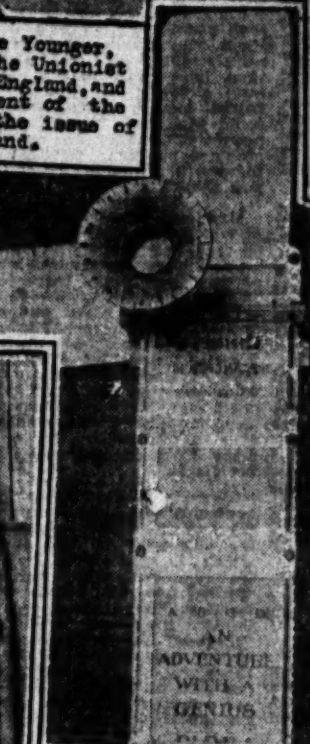

Former Princess Hasmonea, who is being sought in this city and Oakland by a noted Eastern lawyer, Herman Roth, who claims she owes him a fee of \$2,500,000, half of the estate she inherited as widow of the cousin of the Khedive of Egypt. She is now the wife of Capt. Broadwood of the British army. Before her marriage to the Prince, she was an actress.

Mrs. M. Wood Park, head of the National League of Women Voters, who has undertaken to organize the women of Canada along the same lines.

These are among the men who threaten to tie up the coal mining industry in the United States and Canada, April 1, unless intervention is successful. A typical view of miners emerging after a day's work.

Fiske's reading machine, which its inventor asserts will revolutionize printing, in that it makes readable ordinary typewritten matter reduced 100 times by photo-engraving. The device is to be inexpensive, and of vast pocket size.

Rear Admiral Bradley A. Fiske in his retirement has turned to inventing. He is here shown in his study using a new "reading machine" which he has devised to make possible greater economy in printing, and a saving of strain on the eyes. He plans to have his invention widely exploited soon.

"A Family Council"—from Punch, London

# The British Lion's Restless Brood

Restless to realize all the blessings of their united greatness and their individual equality—a restlessness of growth and readjustment, transforming a vast Empire into a world-wide Commonwealth of Free Nations. When did this great change

begin? How was America responsible for its beginning? In what way did Canada hasten it? And Ireland? By what steps and through what difficulties is the process continuing? What important steps remain to be taken? Shall America hinder or help?

## THE BIG STORY OF A GIANT EMPIRE CHANGING TO A DEMOCRATIC COMMONWEALTH

Told in the Special British Commonwealth Number of  
The Literary Digest

OUT TO-DAY

### Bases of British Strength

With all its wealth, natural resources, financial strength and means of defense on land and sea how is England kept from starving? How are the products of the British Empire related to the life of the rest of the world? How is British naval supremacy affected by the Washington agreement? Where have the sons of Britain been going for the past 200 years, and with what effect upon the motherland?

### British Character, Culture and Life

From what "hated enemy" is the dominant strain of English blood traced? What are the natural characteristics of the people and their attitude toward war? What is their notion of private rights, and how does it affect their government? What contradictory things are found in their character and temper, and what general principle accounts for them? How is the growth of democracy changing the British people?

### Egypt Under the British Regime

What modern wonders in Egypt compare, for greatness, with the ancient pyramids and the ruins of Luxor? What has Britain been doing for the last forty years in Lower Egypt and along the Upper Nile? How has Egypt developed what is the present condition of her people, and when did the new Egyptian "nationalist movement" become militant?

### Australia, the Real Land of the Golden Fleece

The oldest continent on earth; larger than the United States, nearly as big as all Europe; a land of wonders and mysteries; surpassing all peoples in the world in per capita wealth and productive power; ninety-seven per cent of her people of pure British descent; a laboratory of political experiments—what is the relation of Australia to the British crown, how is the country governed, what are her political problems, and what is her place in the economic program of the world?

### New Zealand First

Did you know that New Zealand was the first country in the world to make compulsory the conciliation and arbitration of industrial disputes? That it was the first country to establish universal penny postage, state fire insurance, state maternity homes, non-contributing old-age pensions, and many other social and economic reforms? Do you want to know all about this remarkable country of which Bryce declares that "nowhere is the level of comfort higher; there are no millionaires, very few rich persons, and no class of people is sunk anywhere near to the margin of subsistence."

### Changing Tides in South Africa

What marvelous transformation in South Africa has brought about "one of the most dramatic chapters in the modern history of the British Empire?" What caused the Boers, who fought against the British in 1900, to fight for the British in 1915? How did the Union of South Africa become possible, and what claim has it to distinction as "the only real democracy in the world today?" Why is the color problem "the most serious question before the people of South Africa?" What is the thrilling and picturesque story of the taking and making of Rhodesia?

### British Power in the West Indies

What special American significance has been found in the fact that this chain of islands flanks the Gulf of Mexico and the Caribbean Sea? What are the social, industrial, political and commercial characteristics and possibilities of these groups of several thousand islands? Is there a probability of an Imperial Federation of the Caribbean Colonies under the leadership of Jamaica?

## Wonderful Maps, in Colors, of the Far-Flung British Commonwealth

Showing the growth of the British Empire from 1815 to 1922; the political status of all the scattered parts, with area and population. This new, copyrighted map is a correct and up-to-date

guide in studying the development of the world-wide British Commonwealth of Nations, and its relationship to our own political and trade problems in all parts of the world.
